

## **Downtown Mathilda Bridge Project**

The purpose of the Downtown Mathilda Bridge Project is to: a) Provide standard lane, shoulder widths, and ramps; b) Improve curbs and sidewalks to meet ADA requirements; and c) Eliminate the existing bridge's "Functional Obsolete" rating.

The project will provide the following functional improvements: Off Ramp access to East and West bound Evelyn Avenue; Charles Avenue Cul-de-Sac, new pedestrian ramps, new traffic signals at California and Mathilda and SB off ramp and Evelyn.

Lane Closures are not permitted during commute hours: Northbound between 6:00 AM to 9:00 AM and Southbound between 3:30 PM to 6:30 PM. Lanes reopened to traffic after construction. Construction-related vehicles are not allowed to park on neighborhood streets
